Confirmation of Presentation

Confirmation of your presentation should be regarded as an undertaking that, the main author shall submit the following materials for the Technical Programme: **a full manuscript and a presentation** to be included in the online Congress Proceedings and the Virtual Technical Gallery. Each paper must be original and unpublished work, not submitted for publication elsewhere (copyright problems fall entirely under responsibility of the authors). The proceedings are published with ISSN and all IAC papers are indexed with SCOPUS and EI Compendex.

Registration Requirements for Authors

It is **mandatory** that at least one author of each accepted paper attends the session and presents the work. Papers that are accepted will be included in the online congress proceedings and the Virtual Technical Gallery **providing at least the presenting author completes registration (including payment) by 5 September at the latest**. Failure to register before the deadline will result in automatic withdrawal of your materials from the congress proceedings. A single registration may cover up to **three (3) papers maximum**.
