73rd International Astronautical Congress
Paris, France
18 – 22 September 2022

Subject: IAC 2022 - Notification to Authors

Dear Mr. Rovetto,

As Co-Chairs of the IAF International Programme Committee, we first would like to thank you for submitting an abstract for the 73rd International Astronautical Congress. This year, the IAC Call for Abstracts has attracted a record number with more than 4,800 submissions from 97 countries. There was a large number of excellent abstracts to review making the selection very challenging for the International Programme Committee during the annual IAF Spring Meetings, which took place last March.

Despite the interesting topic suggested by your abstract IAC-22,A6,7,x74314 “Visioning a family of knowledge representations for Orbit Data – Research & Development of additional formats for the Two-line Element Set, Orbit Data Message, and other Space Situational Awareness Content” and by virtue of the limited number of abstracts that can be selected for presentation, unfortunately, we are not able to include your abstract in the IAC Technical Programme. However, we still hope to see you in September in Paris.

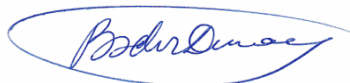

For more information on the Congress, please go to www.iac2022.org

We would like to thank you for your interest in the International Astronautical Congress and hope you will continue seeking participation in future Congresses, such as the IAC 2023 to be held in Baku - Azerbaijan, on 2-6 October 2023.

Yours sincerely,

Pierre Bousquet
IPC Co-Chair

Dunay Badirkhanov
IPC Co-Chair

Michel Arnaud
Advisor to the IPC Co-Chairs
